DEVELOPMENT INITIATIVES BY SOCIAL ANIMATION (DISA)**ANNUAL REPORT 2019 - 2020****MESSAGE FROM THE SECRETARY**

Contrasts and differences are part of the world. Some of them are natural where as some others are man-made. Apart from the natural and functional differences, there are also many differences that are detrimental to the social harmony and social well-being. They are human fabrications, rooted on Caste, Class, Religion, Gender, Wealth, Power and Positions. They shred the humanity into fragments. Over the years of human history, some fragments acquired Higher Voice in the society, whereas some others lost even their voice. Many of them were marginalized and stigmatized. Many of them were even projected as untouchables.

Here, let me bring out a parallelism between the present fragmented Indian Society with that of the Palestinian context before two thousand years. It was a society, divided into various classes on the basis of knowledge, law, religion, gender and wealth. Many were being oppressed and exploited. But there emerged a voice for the voiceless, a hand for the handless and a support for the supportless - Jesus Christ, the Healer! Most of his ministries, teachings and miracles had a common goal - 'Restoration of the downtrodden to the mainstreams.'

The emergence and existence of DISA (Developmental Initiatives by Social Animation) has to be situated and understood against this background. Though a charitable institution, its charity is not equivalent to almsgiving. Rather, it is empowerment - Empowering the weaklings to stand on their own legs, enabling the pathless to pave their own paths and strengthening the voiceless to speak out. Thus the foundational or fundamental goal of DISA is to be the voice of the voiceless after the example of Jesus Christ, Himself. It aims not merely at quenching a one-time hunger, rather, it aims at supporting the individuals to mould their own daily-living.

I also avail myself of this opportunity to appreciate and applaud the Founders of DISA for their vision and dedicated mission and the present Charioteers for their commitment and innovations. Keep going ahead with full vigor, energy, love for the poor & compassion. Wish a great reading ahead.

In order to change the face of socio-economic scenario of the rural areas, self help groups comprising of women, is playing a vital role. The vision behind SHGs approach in a village is to promote self-reliant and a collective woman force towards increase economic and livelihood opportunities in a sustainable manner. CASE STUDIES

Empowerment through SHG

DISA is a registered organization working in U.P and Bihar. There are many SHGs working under DISA. With support of the SHG group, the agriculture and economic status of the people went ahead of the next phase. We have an inspiring success story from Maa Santhoshi Self Help Group that is located in Basti Sadar Block, Basti dist. Since 2019 there are 11 members in this Group and they deposit Rs.50 every month. This group had received from NRLM Rs.15000 as revolving fund and RS.50000 as CCO. Mrs. Anita was one of the Maa Santhoshi Self Help Group members. Though her family had agricultural land they couldn't do the proper cultivation. In one of the monthly meetings she expressed her problem and requested for an amount Rs. 20000 with which she would purchase a second hand tractor. The request was sanctioned and with the help of tractor and the modern way of cultivation she has improved the quality of cultivation which has resulted in a hike in the annual income of the family. The tale of success and happiness does not end there. She also renders the Tractor to her neighbours for Rs. 200 per day. This adds to the income of the family. The neighbours are also very contended as they are able to yield good crops. Anita feels satisfaction and she is grateful to the group. Being inspired by the example of Anita other women also have joined the group making its benefits for their family with and improved lifestyle.

Self –Employed and the Happiness of Family

Another success story from a village called katholiya Lala in Basti District is awe inspiring. There is a SHG named Ambedker Self-help Group. Mrs. Shanti Devi is one of its members. She was very poor finding difficulty to meet the basic needs of the family. She has five children. Her husband is a daily labourer. As the economic condition was very poor, she decided to take Rs.10.0000 as loan from the SHG group. With that money she opened a Grocery shop. It has changed her life and now she bags around Rs.400 to 500 per day. It plays a great role in the smooth running of her family. Children also are very happy because they can meet their education needs with this amount and they are very active in helping mother in the shop. She is indebted to DISA Organization for enrolling her name in the Self-Help Group. They improved financial status and economic stability have brought about peace and happiness in her family.

Acquired Skill for a Better Living.

DISA has been in active operation in Mithawal Block of Siddarthnagar District from 2004 onwards. There are 40 SHGs working in Mithawal block. It is very amazing to see the women participating in the saving activity as well as the extra saving done in small groups. In 2006 one of the new SHG group called Adarsh was formed with 13 members in kapiya Shukla village. There were already two more groups existing in the same village. Every month the group had the saving of Rs 200. Mrs. Amergaha Devi is the one of the members of the Adarsh SHG group. She has two sons and four daughters. Her husband and sons are the daily wage workers and their earnings were not enough to manage the basic needs of the family. Amergaha learned the sewing skill and took Rs.10, 000 as a loan from the group on June 2019. She bought a sewing machine and started stitching blouse, skirt, Churidar and other repairing works of the villagers. Now she earns Rs. 300 to 400 daily. The economic condition of the family has increased and they meet the basic needs of the family with her income. She is very much grateful to DISA for giving her such an opportunity to buy the tailoring machine. Also, she said that she had been benefited a lot of things from DISA other than the loan like the information about the importance of cleanliness, motherhood, Independence Day, Republic Day, Human Rights Day, and women's Day etc,. Regular meetings on monthly basis gives her a chance to come out of the house which was not so usual of her. She too makes effort to repay on monthly basis and fills the family with happiness. Other group members praise her for her initiatives and success.

A Means of Change Self-Help Group

The change is inevitable in our lives. The universe itself is in constant flux. DISA, by realizing the needs of the time, had begun a SHG named Buddah Ambedker in Katholiya lala village. Mrs. Rajmathi is one of the members of this SHG. Her husband, Mr. Rakesh Kumar, is a daily wage labourer. His daily wage was insufficient to meet the basic needs of the family. They have three children. Mrs. Rajmathi took a daring step to take Rs.45000 as a loan from the SHG and bought a 2nd hand car that runs as a taxi car. She earns above Rs.1000 daily. Now their financial status has improved a lot. She and her family take pride in this great success and are grateful to DISA for the facilitation and so do the whole group. Now she is able to repay the loan regularly.

02. Gender Justice and Women Empowerment

NAI DISHA MAHILA SAMATHI is an Organization working for women empowerment and Social Justice. It is very active in all the working areas of DISA. On 25th June 2019 there was a NDMS zonal meeting in sonvaliya village Mithawal Block. The main issue discussed in that meeting was the absence of road facility. In the meeting they decided to meet Village Pradhan and express their immediate need. Seeing that work is not done they decided to meet DM during the Thahaseel Day. So, they prepared a memorandum with all the women and went to submit to DM. Though they had submitted application for the same earlier, there was no reply from the Government. Unlike the other times, they wore the uniform sari as they went to submit the application. To our great surprise on 4th July 2019 logpal, along with Gram Pradhan and police arrived in the village and measured the land for the Road. Then Gram Pradhan took the responsibility to construct the road. Villagers are very happy now they have got the good transportation facility and has developed better relationship with the city and other villagers. Village Pradhan was very happy and edified with all the works that the group was doing as well as its cooperation and good relationship with the Panchayath activities. So he gifted a few big vessels to the group activities for income generation. They use these vessels for the functions of the villagers as well as give rent to outside the village. They bought some more vessels with this income. All the group members are very happy and grateful to Pradhan for his support and kindness.

International Women's Day

Every year on March 8th we celebrate the Inter National Women's Day. Nai DISA Mahila Samathi arranged Women's Day celebration in Asnar village Mithawal Block Siddarthu Nagar dist. Harraiya Block Basti Dist. and Ikauna Block Shrawasti. The theme of the programme was "Rights of Women". The Chief guest for the program was Mrs. Chman Ara Raini. Mr. Kiran Shukla District President for the women, Mr. Mahendra Pratap Singh Panchayathu President Sr. Pratima St. Basil's School teacher, Fr. Johny Mathew Asst. Director DISA, Sr. Shiji Prog. Officer DISA, Mr. Braj Bhushan the Accountant DISA, were present for the program. Program was started with the lighting the lamp and with prayer song. Chief guest and the, guest of honors of the day made aware the people specially women to educate their children with all the opportunities. The big crowd gathered under one umbrella called the 'Nai Disha Mahila Samiti' made them aware about the strength of unity and togetherness. The emphasis was given also on the Right to vote as it is a chance to show their power. SHGs are not only for saving the

money or to have the livelihood activities but also for motivating the women in decision making in the families and bringing them to the main streams of life. They also have learned to grow in leadership and communication skill. Women with the Saloni Sangam (Youth) had prepared the wonderful cultural program. Women took part in singing, and in Drama. There were dances, drama, songs, and many other programs which conveyed the message about the Rights of Women. It was a great festival for all especially to all the members of the SHGs and the villagers. Almost 1000 people were present for the program. Nai Disha Mahila Samati is grateful to DISA for supporting them and preparing the platform to celebrate this great day.

03. Sustainable Agriculture and Natural Resource Management

Farmers are the backbone of the society. Farmers' Club is a grass root level informal forum of farmers in the village. In order to update farmers knowledge and increase the quality of better cultivation DISA had initiated the farmers' federation group in all its working areas. We have 888 enthusiastic farmers from 50 farmers groups in Basti Sadar, Harraiya, Mithawal, and Ikauna Blocks. Monthly meeting is conducted in every group and the information are given to the farmers about the Various Government Schemes, like Kissan Samman Nidi, Harith Kranthi Yojana, Agani Kissan Yojana etc, and also information regarding to save the crop from wild animals, and to make the cultivation with the help of modern techniques. Through the group meetings, it is also encouraged to register all the farmers. Farmers are also imparted knowledge to increase quality of the vegetable cultivation, by using the natural manure. Also, to do the seasonal cultivations like Onion, Potatoes, and vegetables. Awareness was given to them regarding the cultivation of Green Gram, Dhal, Turmeric, Bengal gram Orange fresh potatoes. Some of the place the farmers never did the cultivation on Turmeric and Bengal Gram. Once they started to do, they got interest and could make remarkable profit out of it. The new method of Rice cultivation the System of Rice Intensification (SRI) along with the line sewing was introduced to people. Training helps farmers to incorporate the latest scientific advances and technology tools into their daily operations. The results of enhancing their operations with these tools increases efficiency and can also lead to: Less harm to the environment. Reduced food contamination.

The clubs are linked to the rural branches of banks with the support and financial assistance of NABARD for the mutual benefit of the banks concerned and the village farming community/rural people. adopting new technology, better inputs and farm mechanisation

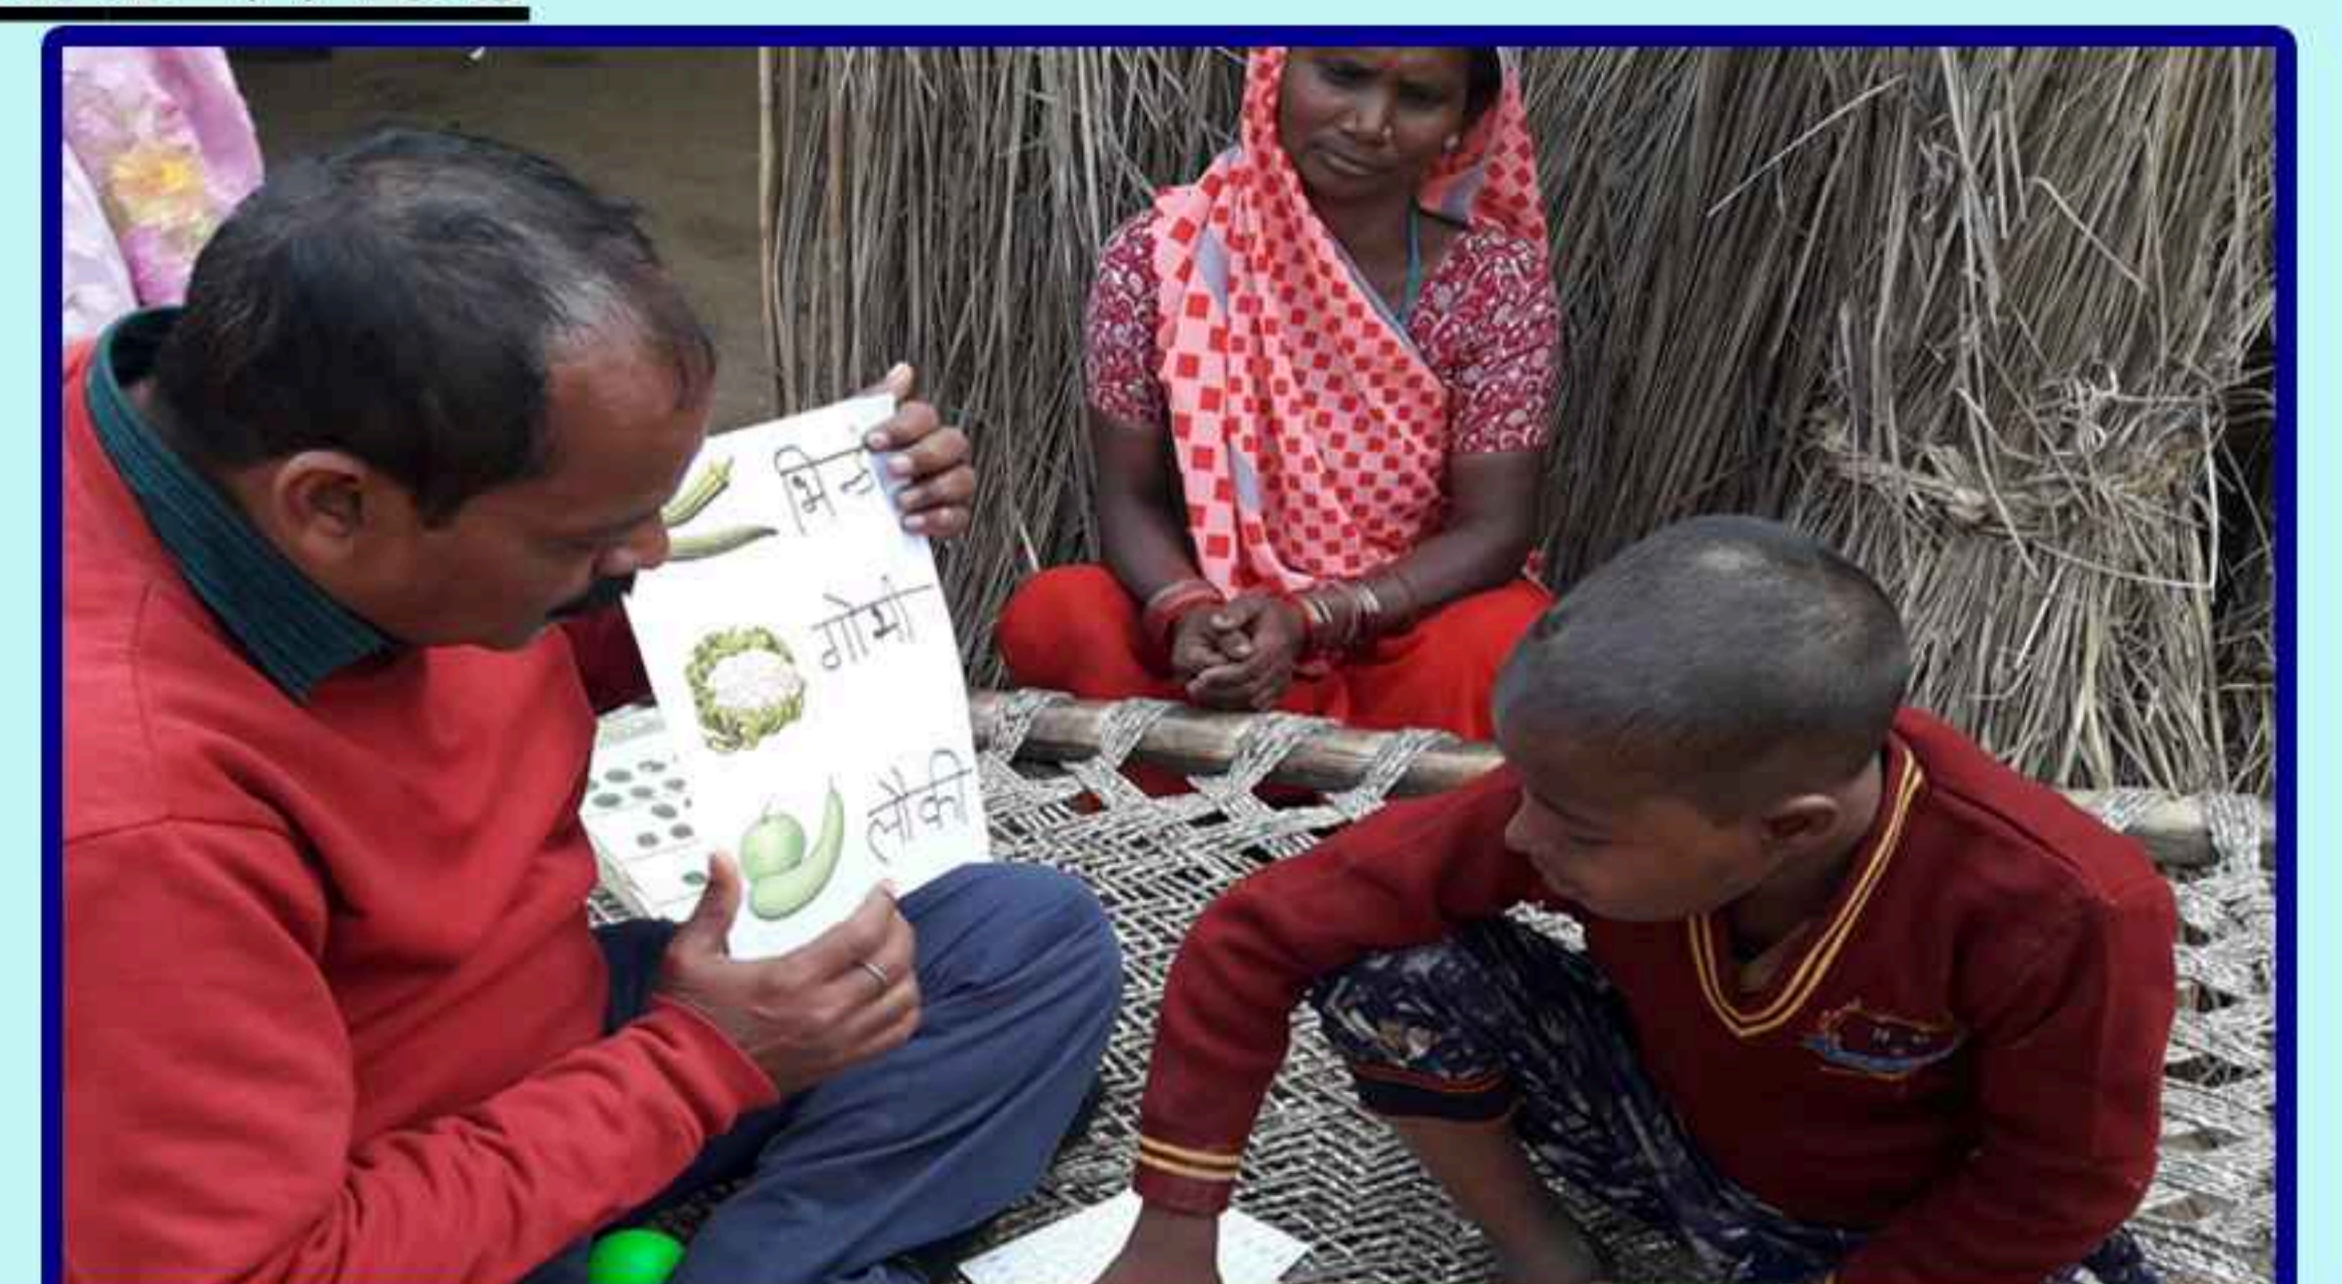

Growing climate change, the rising cost of cultivation, high rate of interest on loans and scanty rainfall have all contributed to making life a living hell for the most important community of farmers. In their up and down DISA stands with them by giving proper guidance and support.

04. Community Based Rehabilitation and Empowerment of PWDs

Community Based Rehabilitation (CBR) is an effort to enhance the quality of life for people with disabilities and their families; meet their basic needs; and ensure their inclusion and participation. CBR is implemented through the combined efforts of people with disabilities, their families and communities, and relevant government and non-government health, education, vocational, social empowerment and other services.

DISA's efforts to reach out to the most vulnerable and excluded and section

in the society have resulted in focusing on children and People with Disabilities (PwDs) for their rehabilitation and empowerment. 76 children have been directly assisted for their, social, educational and medical fitness. The annual gathering of these children along with their guardians was conducted on 21st June 2019 at Harraiya and on 23rd June at Kalwari and 48 children got special prizes in the various competitions conducted. This year 54 children participated in the gathering at Gorakhpur on the occasion of World Disability Day (UDAAN XV) organized by PGSS and Diocese of Gorakhpur. We initiated our efforts to fort Disabled Persons Organizations (DPOs) to demand and get the due rights of the PwDs. We conduct awareness and training programme occasionally in view of their health, education, livelihood, social and empowerment.

05. Skill Development for Youth

DISA is very much concerned to the upcoming generation. We had conducted so many vocational training programs for the upliftment of youngsters. At present we have been running skill development program (tailoring) for young girls in four centres, Harraiya, Faizabad, Sravasti and Basti with the support of Little Flower Society, Germany through CST Fathers.

This short-term tailoring program is focusing mainly on rural girls/women who are either school/college dropouts or unemployed. And many of the candidates are from the Kishori groups (adolescent girls' group) run by DISA in the villages. Apart from providing training, DISA also impart training in health, education, awareness on different types of sickness and training to increase their leadership qualities. DISA motivates youth to work hard and defeat the stumbling blocks in their life. And excel in life by using God given talents and capacities.

Success Story Saloni Group

DISA promotes skills of youth in all its working areas. In 2015 Beem Bai Saloni Group was established in Bahadurpur block of Ramodarpur village. There are 47 members in it. Ms.Moni is a very active member of this group and is excellent in academic level. She has completed her B.A degree with good mark. Though she belongs to a poor family her parents did all they can do for her studies. Her father is a daily wage worker and looks after the family. By understanding family situation DISA had a desire to help the family financially. She got inspiration from DISA and started to take tuition class for 4 children in the beginning. Later two more children joined for tuition. For teaching these children she gets Rs.2000 every month. Her contribution became a real help in the family. She uses this money for her personal purposes, for her education and also to help her family. Many more children want to join her for tuition. She became a model for other girls in the villagers. She desires to continue her studies. She is ever grateful to DISA for giving her the opportunity to make her more self-reliant

Partnership Programms

Exposure Visit by DISA JVS DPO Members to PGSS, Gorakhpur

In 2019 Seven DPO members from DISA Basti along with the programme director, programme coordinator, Prog. Officer and prog.Coordinator visited the PGSS centre in Dumri. We reached there around 9 am. In Dumri they are having livelihood and income generation activities. We visited and gained needful information from the tailoring centre, centre of sanitary napkin and nursery of grafting the new plants. Our DPO members got some innovative ideas to begin the livelihood activities. Then we proceeded to the next village Devipur. There was a meeting conducted along with the villagers and the PGSS staff. They narrated the success story of their life with the flower plantation, vegetable cultivation, mushroom cultivation and the petty shop to our DPO members and enriched them with a lot of knowledge from their activities for our life and work. Then we went Chagadhei village to conduct meeting with the inclusive SHGs. They shared about the importance of inclusive SHG group in which the individuals have taken loan for livelihood activities such as tea shops, egg stall, vegetable shop and tailoring centre. With this inclusive SHG, they are doing collective work with the solar light in different shops. The director of DISA encouraged the DPO members to adapt such livelihood activities and collective work in our own places to increase their own income.

CASE STUDY....

The Shining Star

Reyan, who is suffering from cerebral palsy, hails from Ansnar village of Mithawal Block, Siddharth Nagar district, UP. He lives with his parents. His father is Mr. Muhammad Reyanand having the same disability of Cerebral Palsy. His father is a carpenter and works in Bombay. His mother looks after him. The economic condition of the family is very poor. Reyan's disability is from birth. He did not cry soon after his birth as any other normal new born baby. They had taken him to District hospital Basti, then Medical College Gorakhpur to give all possible treatment. But the results were not satisfactory. As three year's treatment could not bring any effect, his parents stopped the treatment. He was four years old when the DISA facilitators met him in October 2018. He couldn't sit and stand. Reyan used to take liquid food like: milk, dal and fruit juice and was not able to do any activity by himself. When DISA proposed his treatment, the family was reluctant to do anything in the beginning as they had lost hope with his early treatment. However, the intervention started from October after the basic training received by the DISA JVS facilitator from the training center SANCHAR, Kolkata. CBRW used to spend once in a week with the family members and Reyan for basic therapy for his mobility. CBRW made a plan to access disability certificate and home based rehabilitation support on weekly basis with proper support from the family members especially with his mother. After the intervention, he is able to sit and stand with the support now. It was very amazing to see how he has improved to walk little by little. He is initiated to intake semi solid food. His mother gives special attention to him and keeps clean the surroundings. He has received a special wheel chair in March 2019 by the support of JVS. His family is indebted to JVS for this kind deed which brought remarkable change in the life of Reyan. With the initiatives of DISA staff he has got disability certificate of 60% in June 2019. His parents and neighbors are very happy to see the drastic change that has occurred in his life. And we believe that gradually he will improve his health and able to enjoy the life. Reyan can walk holding bar in front of him. Since he is a boy his family gives more care for him.

He will be enrolled in the school soon hoping that he will develop the capacity to learn and become useful for the society. In the future we are planning to continue with Physiotherapy so that he may be able to walk without the assistance of others and start to go to school by himself

Anganvadi and Asha Meeting

From April 2019 there were three meetings conducted with Asha Anganvadi in Basit Sadar and Haraiya. Mr. Subham the JVS program co-ordinator gave awareness to the people about the three forms of disability symptoms such as prenatal period, before and after prenatal period. He also explained the developmental stages of the human being for the early identification. Asha Anganwadi made aware the people the need of having nutritious food during the pregnancy time and to have the regular health check-up and injection. If the newborn child is found disabled till 5 year old, they need to register their name in the nearest Anganadi, so that they can obtain their right of education and other governmental facilities.

Conclusion

DISA has been an incomparable source of change in the backward life of the neglected citizens of our country. Influencing and inspiring persons to live a dignified life has been our target and the results have been optimistic in expression. The collaboration, guidance, resource support and good leadership of many enabled DISA to reach up to this level and extend our companionship to the excluded in the society. The 'little ones' who are marginalized are inspired and given proper awareness for their life and to have a newness in the coming future. We all hope that the days in front of us will surely bloom new roses of great awareness, capacities and collective actions. We here gratefully remember and thank all the partners, collaborators, well-wishers and co-workers of DISA in their selfless service to reach the 'little ones' in the society. This success is the sweat of your hard work and service. So, we appreciate the dedication of all the Staff and the members of DISA in promoting the fundamental values and virtues of the Organization.
